Section 33.57.070050. Residential/Resource zoning district sign standards is amended to read as follows:

~~The following standards shall apply to signs placed on property zoned residential or resource: There are only four (4) basic types of signs that are used in residential/resource zones. Those four (4) types include signs that are attached to the building (facade), signs that are set apart from the building (freestanding/monument), vehicular signs and temporary signs that are needed when certain conditions are met. Any sign that cannot be configured to qualify as one of these four (4) sign types and is not an exempt sign is prohibited in all zones. The time, place, number and manner regulations of these four types of signs is as follows:~~

~~(1) Freestanding, monument and facade signage in Residential/Resource zoning districts, regardless of use, is limited to one unlit sign freestanding or facade sign;~~

~~(2) Sign shall contain no electronic or digital components or be illuminated;~~

~~(3) Sign shall be no more than of one type with a maximum of six (6) square feet of signage; on residentially zoned property and no more than and provided, that within a Commercial Forest zoning district (CF) the maximum sign size is twenty (20) square feet of signage on resource zoned property; -~~

~~(4) Freestanding sign If the one sign allowed is a freestanding sign or monument sign, it shall not exceed five (5) feet in height above grade and shall be unlit. no facade sign may extend above the primary roofline.~~

On parcels that predate the effective date of this chapter that cannot meet the 100 foot vehicular sign setback due to lack of lot depth, vehicular signs can be parked within twenty (20) feet of the lot line farthest from the scenic and recreational highway. Firm identification signage and other signage at the minimum sizes required by State or federal law on commercial/industrial vehicles shall not be calculated as part of the thirty two (32) square foot signage limitation. Work vehicles making a delivery or making a service call away from the home base of the business are not~~

subject to this provision, as the purpose of this provision is to prevent vehicular signs from being used as a form of long-term freestanding signs.

~~(4) When the conditions for a temporary sign are met, one temporary sign may also be allowed on a Residential/Resource property. Conditions present to qualify for a temporary sign would include property/home sale and when advertising a community event. Such signage is limited to one unlit six (6) square foot sign for a property/home sale, construction sign and community event and shall not exceed five (5) feet in height above grade.~~

The following standards apply to nonconforming signs:~~

~~(1) Residential/Resource Zones: A nonconforming sign shall not be altered in height, shape, size, lighting/illumination, or affect the base or support without conforming with the provision of this chapter. No off-premise sign shall add electronic/digital components to a sign and existing electronic/digital signs shall be no greater than 0.3 foot candles above ambient light (includes day and night) and shall remain static for a minimum of 10 seconds, changing instantaneously to avoid startling flashing of lights, and shall transition without animation;~~

~~(2) A nonconforming sign may be maintained as long as the nonconformity of the sign is not increased.~~

~~(3) Properties with nonconforming signage shall only be allowed new or replacement signage requiring a permit after an equivalent number of nonconforming signs on the property are brought into conformance with standards of this chapter.~~

~~(a) Existing, legally erected, noneonforming freestanding signs greater than 128 square feet in area and/or taller than fifteen (15) feet shall be reduced to this standard (128 square feet in area/fifteen (15) feet in height).~~

~~(b) A property whose commercial use predates the existence of a zoning code in Clallam County shall be able to retain one existing, legally erected, noneonforming freestanding sign between~~

thirty-two (32) square feet and 100 square feet in area and fifteen (15) feet in height but any sign larger than this standard shall be reduced to this standard. All existing, legally erected, nonconforming facade signage may be retained but shall not be enlarged in area or changed in location.

~~— (c) All existing, legally erected, nonconforming, freestanding signs not covered in subsections (1)(a) or (1)(b) of this section which are greater than twenty (20) square feet in area and/or taller than five (5) feet shall be reduced to this standard.~~

~~— (2) Commercial/Industrial Zones.~~

~~— (a) Existing, legally erected, nonconforming, freestanding signs greater than 128 square feet in area and/or taller than fifteen (15) feet shall be reduced to this standard (128 square feet in area/fifteen (15) feet in height).~~

~~— (b) A property with one or more existing, legally erected, nonconforming, freestanding sign(s) larger than 128 square feet covered by subsection (2)(a) of this section, that also has a secondary sign larger than thirty-two (32) square feet but smaller than 128 square feet may retain such secondary, existing nonconforming, freestanding sign; provided, that if it is greater than sixty-four (64) square feet in size and fifteen (15) feet in height then it must be reduced to this standard.~~

~~— (c) A property with no existing, legally erected, nonconforming, freestanding sign(s) larger than 128 square feet may retain one existing, legally erected, nonconforming freestanding sign between thirty-two (32) square feet and 100 square feet in size and fifteen (15) feet in height but any sign larger than this standard shall be reduced to this standard if a single sign or the standards below if more than one sign exceeds this standard.~~

~~— (d) All existing nonconforming, freestanding signs not covered in subsections (2)(a), (2)(b) or (2)(c) of this section shall be reduced to the new sign standard of thirty-two (32) square feet in area and ten (10) feet in height.~~

~~— (e) All existing, legally erected, nonconforming facade signage erected prior to the passage of the 1993 sign code may be retained but shall not be enlarged in area or changed in location.~~

~~— (3) Clallam County passed a comprehensive sign code in 1993. Since the 1993 sign code did not require nonconforming signs to come into compliance, all owners of legally erected, nonconforming signs have already had at least seven (7) years to amortize their signs. Nonconforming signs which must be brought into conformance with the area and/or height standards of this chapter may elect to do so after an amortization period that begins either, on the date of the original sign building permit and runs for a term of one year for every \$1,000 of project value claimed on the original sign building permit, or alternatively, two (2) years from the effective date of this chapter whichever is greater.~~

~~— (4) Any sign which was nonconforming under the sign code adopted in 1993 (formerly Chapter 9.26 CCC) or under this code that has been enlarged shall be subject to conformance with the standards of this code without the amortization periods provided in subsection (3) of this section for legally established nonconforming signs after the notice specified in this title is provided to the owner. If the enlarged portions of the sign are not removed within the period specified in the notice, the entire sign becomes a prohibited sign subject to immediate conformance with the area and height requirements of this code.~~

~~— (5) Any sign erected after the passage of the 1993 sign code (formerly Chapter 9.26 CCC) that was a prohibited sign under the 1993 sign code shall be subject to removal by the County after the notice specified in this title is provided to the owner.~~

~~— (6) Properties with nonconforming signage shall only be allowed to erect new or replacement signage requiring a certificate of compliance after bringing an equivalent number of nonconforming signs on the property into conformance with the standards of this chapter.~~

~~Building Code shall require all signage to come into conformance with the new sign standards of this chapter.~~

~~— (8) Nonconforming signs which have had the entire sign face area taken down to the ground as a result of natural disaster or which are removed as a result of loss of lease or are removed as a result of a construction project shall not be re-erected without bringing them into conformance with this chapter. No work on an undamaged, existing nonconforming sign that brings such sign into greater conformance with this code shall be considered to be a sign removal requiring conformance with the standards for new signage.~~

~~— (9) A sign or sign structure removed by the County shall be held not less than thirty (30) days after notice to the owner by the County during which period it may be recovered by the owner upon paying the County for cost of removal and storage, and upon payment of any imposed fine. If not recovered within the thirty (30) day period, the sign or sign structure is hereby declared abandoned and title thereto shall be vested in the County for disposal in any manner permitted by law.~~

~~— (10) All existing illuminated signs, other than facade signs, located in Rural Commercial, Rural Limited Commercial and Rural Neighborhood Commercial zoning districts and which:~~

~~— (a) Are within 600 feet of the outer boundary of a designated scenic and recreational highway; and~~

~~— (11) To encourage the retrofit of nonconforming signs to the standards of this chapter, Clallam County establishes an incentive program to assist owners of such signs. The County will make available, on a competitive basis, the total sum of \$30,000 for a program to assist the owners of nonconforming signs to replace or retrofit such signs into a sign that meets the standards of this code. The \$30,000 County funding set aside for this program may also be used as a match to scenic byway grant funding available to remove outdoor advertising signs.~~

Section 33.57.090. Signage visible from a scenic highway is amended to read as follows:

A permit or other written approval is required from the Washington State Department of Transportation prior to review of certain types of sign permits by Clallam County for those areas within 600 feet of a designated scenic and recreational highway to show conformance with the Scenic Vistas Act and the Highway Advertising Control Act (Chapter 468-66 WAC).

Section 33.57.100. Variances is amended to read as follows:

~~— Applications for a variance from the standards established by this code shall be processed as Type III permits as set forth in Chapter 26.10 CCC and the review criteria outlined in Chapter 33.30 CCC, Variances. Variances shall not be permitted for modification to the number of signs and sign types specified in this chapter. Sign size variances shall not exceed 10 percent of the standard required unless it can be demonstrated that the sign qualifies as a community landmark sign and must show that the increase is required to allow the sign owner to purchase a standardized sign required by a national manufacturer who does not offer signs in a conforming size. A sign size (area) variance of less than 10 percent in area that meets the preceding criteria shall be processed as a Type II administrative variance as set forth in Chapter 26.10 CCC. Sign height variances over the 10 percent limit are available to those business owners that can demonstrate that their nonconforming sign qualifies as a community landmark sign. A community landmark sign must predate the effective date of this code by at least 20 years, have advertised the same business under the same name for all of that time, have become an important cultural landmark to County residents and would be difficult to retrofit to the nonconforming sign standard without destroying the unique character of the sign.~~

Any person aggrieved by the granting, denying or rescinding of a decision of the Administrator made under this chapter may seek review from the Hearing Examiner in accordance with Chapters 33.33 and 26.10 CCC. The request must be in writing setting forth the basis of the appeal and must be accompanied by the appropriate fees outlined in Chapter 5.100 CCC.

Section 33.57.110. Enforcement is amended to read as follows:

The provisions of this title are subject to enforcement and penalty provisions contained in CCC Title 20, Code Compliance, except to the extent preempted by State or Federal law, and except to the extent preempted by any contrary enforcement and penalty provisions contained in this title.

Section 33.57.120. Severability is amended to read as follows:
